eTracks (Collector account)	Jace

STEP 1 HAULER SCANS

Scan the Collection Site QR code upon arrival, OR, select the site location using the eSRP mobile app search feature – the app lists all eTracks enrolled collection sites.

STEP 2 HAULER SIGNS

Enter the number of tires you're picking up. Then, sign for the pickup in your eSRP mobile app. Next, hand your device to the Collector for review.

STEP 3 collector signs

The Collection Site confirms your pick-up by signing for it in your eSRP mobile app.

STEP 4 COMPLETED!

The Collection Site will now receive an email, letting them know an eTracks Hauler has completed a tire pick up.

Verifying yourself as an eTracks Hauler ensures the Collection Site knows their tires are accounted for in Ontario's tire recycling system.
