eTracks (Hauler)	1 - MM
eTracks (Hauler) eTracks Tire	1
eTracks (Hauler) eTracks Tire eTracks (Collector account	, no .

STEP 1 HAULER SCANS

Have the Hauler scan your posted QR code, OR, they can select your location in the eSRP mobile app - the app lists all eTracks enrolled Collection Sites.

STEP 2 HAULER SIGNS

The Hauler enters the number of tires being picked-up and signs the transaction, before handing the device over to the Collector for review/confirmation.

STEP 3 Collector signs

The Collector confirms the haulers tire pick-up by signing for the transaction in the haulers eSRP mobile app.

STEP 4 COMPLETED!

You will now receive an email confirming that an eTracks Hauler has completed your tire pick-up.

Verifying your eTracks Hauler ensures we're collecting and accounting for your tires in Ontario's tire recycling system!
